TRANSPARENT OLED DISPLAY

SPECKTRON

Features

Specktron unveils a groundbreaking display experience powered by OLED technology. Witness unparalleled visuals with:

Self-Illuminating Magic: Individual pixels generate their own light, resulting in incredibly rich colors, perfect blacks, and unmatched contrast for a picture that leaps off the screen.

Transparent Brilliance: Specktron's innovative transparent displays offer a glimpse into the future. They seamlessly integrate with your surroundings, creating a futuristic aesthetic and an enhanced sense of technological wonder.

Touch & Android Integration: Specktron OLED displays boast intuitive touch control and seamless Android system support, making them ideal for diverse applications.

Crystal Clarity: Effortlessly navigate content with a super high refresh rate that eliminates lag and ensures a smooth, comfortable viewing experience.

Unrestricted Viewing: Immerse yourself in visuals from practically any angle with the display's impressive 178° ultra-wide viewing angle.

Specifications

Display Size	55"
Backlight type	OLED
Resolution	1920*1080
Ratio	16:9
Brightness	150 - 400 cd / m²
Contrast Ratio	150000:1
View Angle	178°/178
Response Time	1ms (Gray To Gray)
Color Depth	10bit(R),1.07 billion colors
Material	Aluminum profile + tempered glass + sheet metal
Input	USB*1+HDMI*2 + RS232IN*1
Output	RS232 OUT *1

Power Input	AC 100-240V
Power Consumption	<200W
Performance period	7*12h
Lifetime	30,000 Hours
Working Temperature	0°C~40°C
Humidity	20%~80%
