IR Interactive Whiteboard

The Specktron IRB1-TW Series is a technologically advanced product in the intelligent series line. The interactive whiteboard features (10 touch) technology that enables multiple users to write and draw simultaneously. Users can switch seamlessly between writing, drawing and moving objects with a finger, stylus or even a pointer. The board easily connects to a computer through a USB interface. It is the ideal tool to increase engagement and collaboration within any education, corporate or professional teaching or training environment.

Specifications

Model Number	IRB1-82TW
Technology	IR
